Pumpkin Chocolate Chip Cookies

Ingredients:

1 box spice cake mix or other flavor

15 oz. can pumpkin puree (not pumpkin pie filling)

16 oz. semi-sweet chocolate chips

- Preheat oven to 350 F and line baking sheets with parchment paper
- Sift cake mix into large bowl
- Add can of pumpkin puree, and stir well until the cake mix is moistened and there are no small flour lumps left in the dough
- Add the chocolate chips and stir well, reserving a handful of chips for later
- Scoop the dough by generous tablespoons onto baking sheets, leaving a few inches in between. Press 2-3 reserved chocolate chips on top of each cookie dough ball
- Bake the cookies at 350 F for 13-16 minutes, until they're puffed and the center has lost the raw shine and just started to show cracks. They won't darken much so don't look at color as an indicator of when they are done
- Cool completely on a cooling rack, then serve and enjoy!
